

The Journey (aka theGoing) what???

Ever heard someone say, "I've been going a thousand miles an hour..."? Truth is, we're all going a thousand miles an hour. Actually it's more like 1,038 miles an hour. That's how fast the earth is spinning in its axis. That's fast! At that rate you could get from church to L.A. in just over an hour. Physically, going is a part of life, we're never *not* going.

When we talk about theGoing here's what we mean...everything happens in theGoing. We grow, change, see new things, develop new ideas, have new experiences, it all happens in theGoing. Faith happens in theGoing, too. It doesn't happen in some kind of vacuum, outside of our everyday going...it happens right along with all the rest. God meets us in theGoing, goes with us, gives us joys, opportunities...He uses all the experiences of our Goings to develop us as His people.

Think of it this way: if you're going on a mission trip this summer...you're Going on a mission trip this summer. In theGoing on the mission trip God will be doing things to you, in you, through you. And in your Going you'll encounter a bunch of others to, in and through whom God is working, too. Ah...it's Going to be good!

.Where is the theGoing taking you this summer???
